

PRIME Instant Offices and Business Centre

Copyright, IP and trademark registration,
protection and management

From PRIME's affiliation with one of the country's leading IP legal specialists, to our Affiliated Partner status with the Bahrain Ministry of Industry and Commerce and, of course, with our connections with the many associate firms and other key contacts throughout the GCC and wider MENA region, we are excellently placed to deliver the full range of copyright and intellectual property services that today's international businesses demand.

Bahrain has been a regional leader in developing intellectual property laws and regulations, and IP protection is a key component of trade agreements the country has signed with the US, the UK and other countries.

PRIME's full range of services consist of:

- **Registration and renewal** – including copyright, trademarks, patents and industrial designs, locally, regionally and globally.
- **Patent drafting** – assistance with drafting the patent for your invention, to facilitate the registration process.
- **Brand management** – covering any size of brand portfolio, plus assistance with branding and brand development, as well as patent annuities, licensing and successful commercial exploitation of your brands.
- **Data protection** – ensuring your business affairs and trade secrets remain private; areas include personnel and supplier agreements, confidentiality clauses and so on.
- **Trademark watch** – making sure your IP rights are protected at all times. We also offer anti-counterfeiting protection and investigation.
- **Ownership search** – for patents, trademarks and image rights.
- **IT services** – including online security and asset management software, plus domain name registration and renewal.
- **Legal services** – from basic advice we can offer ourselves through to in-depth guidance, enforcement, prosecution and other services via our affiliation with Zu'bi & Partners.
- **Technical/legal translation and other business assistance** – to help you facilitate the registration and management process.
