#### Company Profile

“ennea” is a Company exporting High Quality Greek products and Delicacies, always with respect to the relative Culinary Tradition.

“ennea” products are selective, not industrially produced, but of relatively small production using ingredients of Fine Quality, coming from small Greek Family producers who have been working with the Company for long time.

The goal of “ennea” is to market their products with consideration, keep and enforce their high standards, establishing ensured business’ deals and create satisfied consumers all over the world.

“ennea” are looking to co-operate on long term basis with reliable and responsible associates who will present, Import / Distribute and Market their products.

“ennea” was established to market Greek Premium Extra Virgin Olive Oil and following the feedback received the range of products has expanded to include Complementary Delicacies such as Plum Olives, Honey, Vinegar, Raisins, and Marmalades.

1. **“ennea” Premium Extra Virgin Olive Oil** is produced in the Province of Laconia, at the area of Sparta, which is considered the area where the best quality Extra Virgin Olive Oil is produced in Greece.

“ennea” **Premium Extra Virgin Olive Oil** is bottled fresh oil, coming from the current year’s harvest, from healthy olives, extracted with care directly from olives and solely by mechanical means. The Olive Oil acidity of 0.2-0.3% (while the maximum allowable acidity as per standards is 0.8%), and the excellent light taste, make it suitable for all kinds of cuisine.

The quality characteristics of **“ennea” Premium Extra Virgin Olive Oil** are proven by chemical analysis carried out by especially accredited laboratories applying international accredited tests. The Organoleptic characteristics are proven by Awards received in relevant Olive Oil Competitions in Japan, China and Greece.

2. **“ennea” Premium Green Plum Olives** and **“ennea” Premium Black Plum Olives**,  
Is Unique Old Greek variety of olives, cultivated under Integrated Management.  
It is Natural Product treated in traditional method - salt brine - achieving a unique texture and taste and keeping all the nutrients of the olive.  
(Note that some companies choose to use alkaline solution for treating the olives, which gives faster results but at the expense of texture, taste and nutrients)  
NO Additives and/or preservatives are used.  
Excellent as a healthy snack or in green salads.
3. **“ennea” Thyme, Herbs and Flowers Honey** and **“ennea” Conifers and Herbs Honey**  
Excellent quality Honey exactly as it comes from the hive from mountainous Conifer trees, Thyme, Herbs and Flowers only, from locations away from farming areas,  
NOT subjected to chemical or thermal treatment for a unique taste and maximum nutritional value.

Natural sweetener in drinks/coffee/tea, healthy topping of yogurt, healthy topping of ice-cream, used in meat sauce.

4. **“ennea” Premium Honey Vinegar**,  
a Rare “Homemade” natural product, produced in small quantities, from careful fermentation of three types of honey for 18 months, giving a Very Unique taste, completely different from other vinegars.  
Contains NO Additives or colourings.  
Excellent as a key ingredient for sauce, as dressing of salads or ingredient for marinades.
5. **“ennea” Premium Corinthian Raisins** is,  
an Old Greek Traditional product from ancient times.  
It is a Natural product, processed by the traditional sun-drying method, passed on from generation to generation, with a strong/intense after taste.  
Its High Quality Nutritional Characteristics are proven by Academic Research  
Rich in anti-oxidants, minerals and dietary fibres.  
High fructose content / Low Glycaemic Index.  
Suitable for use by patients suffering diabetes.  
Excellent as a healthy snack, in green salads, in cakes, as topping of yogurt, mixed with oat flakes for a healthy and nutritious breakfast, in homemade energy bars.
6. **“ennea” Cherry Marmalade** and **“ennea” Orange Marmalade**.  
“ennea” Marmalade is a “Homemade” product , based on old family recipes, from whole pieces of selected fresh Greek fruits.  
Produced in small quantities from 55gr of fruit per each 100gr of marmalade.
